

# OILS AND PICKLES

Table olives are a highly nutritional food due to its balanced fat content full of oleic acid. Eating this kind of olive provides essential fatty acids, fibre, vitamins and minerals.

Spain as the largest producer, consumer and exporter country of olive, raises the demand for this product at its finest and we, we offer customer our product range for conservation, both in small volume containers to the final consumer, as in large containers for catering or restoration.

**FROM THE  
OLIVE TREE  
TO OUR TABLE  
ALONG WITH  
OUR PRESENCE**

We are a family company working for more than **50 years** in the metal containers sector. We offer a wide range of high quality products in order to meet your needs.

**We use the best technology advancements** in the manufacture of our metallic packaging and we have a wide range of sizes and possible purposes.

We offer to you different models to fit the need, using different types of seal, finish (lithographed and anonymous) and diameters.

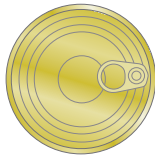

Nowadays, we produce all around Spain. However, we are strengthening our presence in international markets such as Latin America and Asia, following our strategy of growth.

# CANNED FISH

Since the beginning of time, one of the obsessions for all civilizations all through human kind history has been **the preservation of food.**

Nowadays, our materials, along with new technologic advances, allow us to maintain fish for longer periods, creating a more resistant canned food and keeping all its vitamins because the light does not deteriorate the product.

# CANNED VEGETABLES

This task, that appeared from a traditional and homemade elaboration of products, has become a highly important element in our gastronomy, due to the human need of improving his nutrition and providing himself for times of scarcity.

The current methods, along with our packaging, make safe and long-lasting products, which are able to be stored at room temperature. That is why so many people nowadays consume canned food.

**WE KEEP
